# Framework To Organize Our Thinking

**SET OF CRITERIA & LOCAS OF AUTHORITY FOR  
IMPLEMENTATION (COM, DMH-COUNTIES?)**

# Principles

- All outcomes are equally important
- Cannot role out without all stakeholders collaborating around an integrated plan (stakeholders vary by age and sector)

# Principles

- Schools must be involved in all county strategies involving children\youth
- Plans should seek to leverage funds and resources that are linked to stakeholders
- Primary prevention strategies should be linked to achieving the act's stated outcomes

# Principles

- Plans and strategies should be consistent with transformational principles (consumer and family driven, collaboration and community integration, wellness, recovery and resilience, cultural competence, disparity elimination)

# Next Steps for Commission

- Other stakeholders need to be engaged in the process (CMHDA, DMH, Planning Council, other constituents)
- Committee needs to inform commission of its shared foundational points and principles, and recommendations
- Acknowledge work already done at the county level through the CSS planning process and use good local examples as a way to show counties how to improve the process

# Next Steps for Commission

- Formats\processes developed and timed in order to have public comment
- Timeframes needed to be articulated for the entire process
